ABOUT ME

Motivated and driven frontend developer with a strong passion for coding and a commitment to achieving excellence. Seeking opportunities to apply my skills, gain practical experience, and contribute to innovative projects. Detail-oriented, organized, and able to work effectively both independently and as part of a team.

PROJECTS

○ Bus Link

Link: <https://development--bus-link.netlify.app/>

Utilized React Vite to create a user-friendly transport web application allowing passengers to book seats effortlessly and enabling bus owners to track their buses and drivers in real-time. Implemented interactive features, such as live location updates and intuitive booking interfaces, enhancing the overall efficiency and convenience for both passengers and bus owners.

○ Shopping Cart

Link: <https://gh-pag--shooping-cartt.netlify.app/>

Created a shopping web application using React with TypeScript, empowering users to build personalized wish lists and shopping carts for their favorite accessories. Leveraged TypeScript's strong typing to enhance code reliability and maintainability. Implemented efficient search functionality, enabling users to quickly find and add products to their lists or carts, resulting in a seamless and enjoyable shopping experience.

○ Age Calculator

Link: https://github.com/gloriaumutoni/Age_Calc

Designed and developed an Age Calculator application using React.js, enabling users to effortlessly determine their age with precision based on birthdate input. Demonstrated proficiency in front-end development, problem-solving, and creating intuitive user interfaces.
